

SETTING UP THE APPLICATION ENVIRONMENT

Create IBM Cloud Account

Date	11November 2022
Team ID	PNT2022TMID37500
Project Name	Inventory Management System For Retailer

Create ibm cloud account:

The screenshot displays the IBM Cloud dashboard interface. At the top, there's a navigation bar with the IBM Cloud logo, a search bar, and user information for 'Antony Hyson S's Account'. The main content area is titled 'Dashboard' and features a 'For you' section with several recommended resources and guides. These include 'Build' (Explore IBM Cloud with this selection of easy starter tutorials and services), 'Set up your IBM Cloud account' (Learn how to set up your IBM Cloud account, manage your account settings, organize resources, and control access to those resources), 'Build a web app with Watson Speech to Text' (Deploy a conversational interface compatible with any application, device, or channel), 'Get Started with Watson Studio' (Get started with using AI and Cloud Object Storage in 15 minutes), 'Build a virtual machine' (Lift and shift your VMware workloads to the IBM Cloud), 'Use Continuous Delivery' (Use Continuous Delivery to automate builds, unit tests, deployments, and more), 'Use Cloudant' (Cloudant is a managed NoSQL document database that offers serverless scaling of throughput, capacity, and storage), and 'IAM Best Practices' (Check out best practices to effectively manage access to account resources). Below the 'For you' section, there are four more panels: 'News' (Unified Key Orchestrator Now Supports Easy Multicloud Key Management for Google KMS, TrustRadius Best Software: Five IBM Offerings to Make the List, Announcing IBM Cloud Pak for Network Automation Version 2.4, No Prerequisites for IBM Cloud Certifications), 'Recent support cases', 'Planned maintenance', and 'IBM Cloud status' (featuring a world map). The bottom of the screen shows a Windows taskbar with various application icons and the system clock indicating 10:13 AM on 08-11-2022.
